Arne Vyt CANDLES

Concert and poetic words
Album and solo guitar concert by Arne Vyt

Description:

Like burning candles, Arne Vyt's odes on guitar bring light and hope to victims of sexual abuse. The inspiration is born from silence in an inner world full of feelings, and translates into his own unique style, with a perfume of jazz, classical and avant garde. By presenting his compositions to the general public, Arne aims to bring awareness and transformation around this current topic, for both the victims and the collective as a whole.

Biography:

Arne graduated as a performance technician, after which he obtained a Master's degree in Pop and Rock Music in 2015 from the Provincial University of Hasselt (Flanders), specializing in guitar. This versatile musician and composer is the frontman of the progressive rock band Archont. He also founded and composed the gypsy jazz trio Rosa in 2015 and composed Veerman's album "Gefluister van de stroom." He is the founder of the project ROBBOTBETON and the guitarist for Dolores. In 2023, he recorded his first solo album under his own name, with which he toured Belgium.

He has taught at several academies and co-founded the collective Refugee Recordings, with which he has given music workshops in refugee camps. He also gained professional experience as a theater, lighting, and sound technician at the Beveren-Waas cultural center and at various major festivals such as Werchter and Pukkelpop.
